Subject: Contract details regarding Multi Function Devices, Photocopiers and Printers.

Date Released: 8 July 2008

Summary of request: Request for Companies House contract details on; Multi Function Devices, Photocopiers and Printers.

Information released:

Companies House purchase all of its multi function devices and photocopier requirements from Konica through their framework agreement with the Value Wales arm of the Welsh Assembly Government. We therefore have no contracts direct with this supplier. The supplier contractual arrangement is with the Welsh Assembly Government - we simply purchase off this agreement at agreed prices.

We also do not have a contract in place for the purchase of printers. New printer acquisition is being phased out through the increased use of multi functional devices' so there is only an occasional ad-hoc requirement to purchase. These purchases are made through the Office of Government Commerce's (OGC) Catalyst Framework Agreement.
